HBSQ-K Explosion-Proof Chain Hoist

SY-E-EPCH

Short introduction:

- ✔ The HBSQ-K Explosion-proof chain hoist is a specialized lifting device designed for use in potentially explosive environments where there is a risk of flammable gases, vapors, or dust particles.
- ✔ The hoist incorporates spark-resistant features such as copper or bronze hooks, chains, and components, which help prevent sparks from occurring during operation.
- ✔ It is specifically engineered to meet stringent safety standards and prevent ignition sources that could lead to explosions.

Copper alloy shell:

High explosion-proof grade, strong sealing.

2MN2 Steel Chain:

Lifting chain with 2MN steel chain nickel-plated copper alloy, hand chain with H62 brass material explosion-proof grade higher.

Forged hook:

High strength copper alloy forging high strength, good toughness.

High quality sprocket:

No Spark Produced by Friction of Copper Alloy Sprocket.
